Summary

I'm a passionate full-stack developer who transforms ideas into efficient, scalable, and user-friendly digital experiences. My expertise spans from Python and React to secure backend systems and UI/UX design. I thrive on solving real-world problems, experimenting with new tech stacks, and continuously learning to merge creativity with logic.

Interests

Full-Stack Web Development

React, Next.js, Node.js, Express, TypeScript, MongoDB, REST, GraphQL

UI/UX Design

Figma, Prototyping, a11y, Design Systems, TailwindCSS

Mobile & Cross-Platform

Flutter, React Native, Firebase, Play Store

Open-Source & Community

Contributions, Code Reviews, Hackathons, Tech Blogging, Mentorship

DSA & Problem Solving

Algorithms, Data Structures, LeetCode, Competitive Programming

Education

Maharajah's Autonomous College, Vizianagaram
(Affiliated to Andhra University)

2023-10 - 2026-04

Computer Science

8.64 CGPA

[🌐 https://mracollegevzm.com/](https://mracollegevzm.com/)

Studying core computer science concepts including software development, algorithms, and data security.

Sri Meedha Junior College

March 2020-2023

MPC

Intermediate

Kaspa High School

March-2020

10th

Secondary Education

10 CGPA

Certifications

LearningTree Frontend Developer

LearningTree

2025-05 to 2025-06

Frontend development course completion.

Gwing Python Developer

Gwing

2025-05 to 2025-06

Completed Python developer course.

APSSDC Python Certificate

APSSDC

2025-05

Python certification through APSSDC.

APSSDC Java Certificate

APSSDC

2025-07 to 2025-08

Java certification through APSSDC.

Android Application Development

Oasis

2025-09

Android application development completion certificate.

ClientUra Offer Letter

ClientUra

2025-10 - Present

[🌐 https://clientura.org/](https://clientura.org/)

Official internship offer letter from ClientUra.

Projects

Resume Builder V5

- Built a full-stack AI-powered resume builder with dark mode, print-ready exports, and a sleek responsive design. Supabase authentication and database for secure user data handling.
- Optimized UI rendering and state management using Redux Toolkit, improving load speed by 30%.

Live Link

React.js, TailwindCSS, Redux Toolkit, Node.js, Express.js, Supabase

Chat Rooms

- Developed a real-time global and private chat system using Supabase Realtime WebSockets.
- Implemented session-based authentication and unique Room IDs for secure private messaging.
- Designed a responsive, mobile-friendly interface with TailwindCSS and Next.js routing. [Live Link](#)

Next.js 15, React 19, TypeScript, Tailwind CSS, Supabase (PostgreSQL), Supabase Realtime, session-based auth

Android Apps Collection

- Built and published a collection of five Android applications, authentication, CRUD operations, & UI/UX design.
- Implemented SHA-256 encryption and unique keystore signing for enterprise-level app security. [Repo Link](#)

Android SDK, Material Design, SQLite, Gradle

Experience

Clientura

Oct-2025 - Present

Full Stack Developer Intern

Vishakapatnam

 Website

- Developing web applications using modern full-stack technologies and collaborating with a team to solve real-world business challenges.
- Collaborating in a team to design secure, production-grade features for real-world business clients.

Freelance

2023 - Present

Independent Developer

Vizianagaram

- Delivered end-to-end web projects focusing on performance, UI/UX, and backend optimization.
- Worked directly with clients to gather requirements, design prototypes, and deploy responsive web applications.
- Used stacks like React, Express, and Firebase to build lightweight, high-performing digital products.

Skills

Technical Languages

Python, JavaScript, C, TypeScript, Shell, Bash

Frontend Development

HTML, CSS, React, TailwindCSS, Bootstrap, Figma, UI/UX Design

Backend & Databases

Node.js, Express, Flask, MongoDB, Firebase, MySQL

Cybersecurity & DevOps

Ethical Hacking, Secure Coding, Linux Administration, Git, Version Control

Tools

VS Code, Android Studio, Postman, Figma, Canva
